

**FOOD & NUTRITION SERVICES FOR THE
TOPPENISH SCHOOL DISTRICT – UPDATE**

As we just started the new school year and have sent out menus to staff and students, we want to let you know we are facing unprecedented issues with the supply chain that will cause us to alter our posted menus with little to no notice. We work closely with our distributors and manufacturers to make sure to try to secure both the food and supply items that are needed to support the food program.

It is our intention to serve the posted menu each day at every school, but supply issues will not always allow us to do this. Until the supply chain issues are resolved, menus may be subject to change. We will always attempt to substitute the scheduled menu item with another that is a similar item and to the extent that it is possible. Rest assured, we will always provide wholesome meals each and every day.

Thank you for your understanding.

Food Services Department: Nora Flores, 509-865-8093.

"Toppenish School District is an equal opportunity provider and employer."
