Dear Community Members,

I am delighted to share some excellent news regarding the financial management of our school district. We recently received the results of an independent report conducted by the State Auditor's Office, and I am thrilled to inform you that the results have been overwhelmingly positive. The audit thoroughly examined our internal practices regarding Financial Reporting, as well as in the Major Federal Programs of Special Education and Food & Nutrition Services. I am pleased to report that no problems were found in any of these areas.

This remarkable outcome is a testament to the hard work and dedication of our staff, administrators, and school board members who diligently uphold financial transparency and accountability within our district. It also showcases our commitment to efficiently and effectively managing the resources entrusted to us, particularly in areas as crucial as special education and food and nutrition services.

The positive results from the auditor in the area of 'Financial Reporting' means we are doing a good job of keeping accurate financial records. It also assures our community that our financial practices are in full compliance with state and federal regulations, and that we are utilizing taxpayer funds responsibly and ethically.

Similarly, the positive results from the auditor in the Major Federal Programs of Special Education and Food & Nutrition Services, demonstrates our diligent oversight in these critical areas. It affirms that we are efficiently managing federal resources designated for these programs and ensuring that they are utilized to benefit our students' educational needs and nutritional well-being.

I would like to thank all the staff involved in the audit process for their dedication and hard work. Their unwavering efforts have contributed to this remarkable outcome, and we can all take pride in this achievement.

As your acting superintendent, I want to assure you that we will continue to prioritize fiscal responsibility, accountability, and the delivery of high-quality education and services to our students. We remain committed to providing an environment that promotes excellence, equity, and student success.

If you would like to review the full 56-page audit report, it can be accessed via this link to the [State Auditor Office](#).

Once again, thank you for your continued support and trust in our school district. Together, we will strive to provide the best educational experience for our students.

Sincerely,

Shawn Myers
Acting Superintendent
